MEMORANDUM FOR: Director of Logistics

SUBJECT : Issuance of New Task Order -- Contract #11

25X1A5a1

25X1A5a1

1. The technical proposal, attached, was received from [REDACTED] and relates to the issuance of a new task order to Base Contract #11. The period to be covered in the new task is from 1 April 1964 to 1 April 1965. The Office of ELINT Staff has reviewed the proposal and considers it acceptable.

25X1A5a1

2. [REDACTED] is presently engaged in applied and theoretical research studies leading to the development of new and improved intercept techniques; the computerization of electronic intelligence data to facilitate storage and retrieval; the application of advanced analysis techniques; and the development of electronic countermeasures devices. [REDACTED] has contributed to the solution of technical problems in each of these areas which justifies extending the contract for another year. Additionally, other Government agencies have contracted with [REDACTED] for the development of ELINT collection and analysis systems or components thereof which are of interest to this Office from a community standpoint.

25X1A5a1

25X1A5a1

3. This contract is a work order type task and is designed to provide a quick reaction capability to problems encountered in the ELINT collection and analysis field. Accordingly, work projects undertaken by [REDACTED] for the ensuing year will be in response to requirements which arise on an immediate basis. Such requirements cannot be forecasted with any degree of accuracy beforehand; however, [REDACTED] contribution to ELINT sponsored programs may be evaluated on the basis of accomplishments resulting from the last contract. Examples of projects undertaken by [REDACTED] are:

25X1A5a1

25X1A5a1

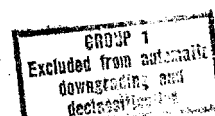

25X1A5a1

- (a) Consultant services in (1) the radiowave propagation field, (2) exploratory research and development in [REDACTED] techniques, (3) the development of specifications for [REDACTED]

25X1A2d2

25X1D0a

~~SECRET~~

25X1A5a1

- (b) [REDACTED] fabricated, one of a kind, devices for purposes of updating HEPC data analysis equipment. The purpose of these devices was to configure a semiautomatic system for signal analysis.

25X1A1a

4. Requisition LLR-64-246, attached, substantiates the obligation incurred by the Office of SLINT in support of this contract. It is requested that security and other features of Task Order 3 be duplicated in negotiating the new contract.

25X1A9a

5. [REDACTED] extension #741, has been designated Project Officer for this contract and will monitor its execution.

GEORGE C. MILLER
Assistant Director for SLINT
Deputy Director (Science and Technology)

APPROVED
